

2K PU CLEAR COAT

THEORETICAL COVERAGE

PETROL RESISTANT

STRONG BOND DIRECT TO METAL

VERY HARD SURFACE

MASTON 2K TWO ® EPOXY CLEAR COAT creates a waterproof, airtight and chemical resistant surface. In traditional 2-component solutions, the varnish and hardener are mixed just before painting, so the service life of the varnish varies from minutes to days. Maston 2K Two EPOXY CLEAR COAT® does not need to be activated separately. With the patented Maston 2K solution, 2K Two® CLEAR COAT is always ready for use as many times as needed. The clear coat is suitable for almost all surfaces such as metal, aluminum, galvanized metal, copper, chrome, wood, stone, ceramics, glass and most plastics.
