

2K TWO SPRAYPAINT

Maston 2K Two® creates a water-, airtight and chemical resistant paint layer. In traditional 2-component solutions, the paint and hardener are mixed just before painting, so the life of the paint varies from minutes to days. Maston 2K Two® does not need to be activated by puncturing the hardener can. Thanks to the patented solution, Maston 2K Two® paint is always ready for use, as many times as necessary and has a shelf life of several years. The paint is suitable for almost any surface such as metal, aluminum, galvanized metal, copper, chrome, wood, stone, ceramics, glass, and most plastics
