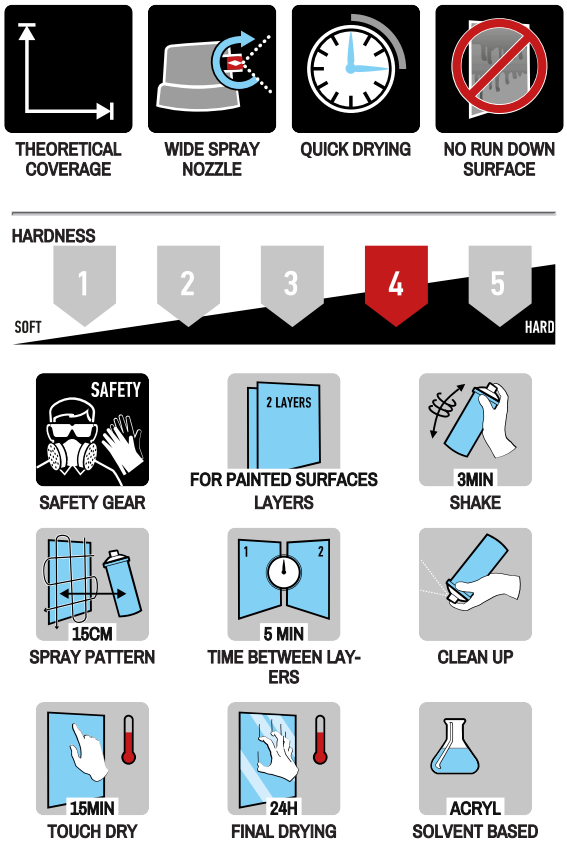
SPRAYPAINT METALLIC EFFECT LACQUER



Maston Metallic aerosol paint with metallic pigments and a short drying time is an acrylic paint for both indoor and outdoor applications. The paint gives a perfect metallic finish to wood, stone, glass, metal and most plastic surfaces after only one application. Instructions: Prime metal surfaces with Metal primer and plastic surfaces with Plastic primer if necessary. The surface has to be clean, dry and free of any grease, wax or silicone. Shake for at least 2-3 minutes also occasionally during painting. Paint a test patch on invisible area first. Start spraying outside the object at distance of about 15 cm from surface and move the spray slowly on the object. Spray a thin layer first to improve adhesion. Let dry between layers for 5 minutes. Thereafter apply 2-3 thin cross layers on the surface and let dry. Repeat if necessary. Touch-dry 15 min. Totally dry 24 hours. Clean the nozzle by turning the can upside down and spray until only propellant comes out.

BINDER: Acryl

STORAGE STABILITY: 60 months

SIZE: 400ml

SALES QTY:
400ml: 6 pcs

USAGE INSTRUCTIONS:
When using the product indoors, ensure that the area within at least a 5-meter radius of the painted object is protected. Paint dust is lightweight and can spread over long distances through ventilation.
