

1K EPOXY PRIMER GREY

THEORETICAL COVERAGE

NO CORROSION

WIDE SPRAY NOZZLE

SAFETY GEAR

Maston 1K Epoxy Primer is fast-drying primer designed for demanding repair and maintenance applications in both industrial and automotive environments. Provides excellent adhesion and long-lasting corrosion protection on steel, galvanised steel, aluminium and other challenging substrates. Suitable for repaired areas, maintenance painting, spot repairs and isolating sanded-through surfaces before top coating.

The versatile formula adheres well to bare metal, previously painted surfaces, sanded OEM coatings and many hard plastics, making it ideal for workshops, industrial maintenance and professional refinishing work. Compatible with both solvent- and water-based paint systems.

Features:

- Rapid-drying formula
- Excellent adhesion on steel, aluminium and galvanised surfaces
- Effective corrosion and moisture protection
- Suitable for industrial maintenance and automotive refinishing
- Can be used for wet-on-wet applications
- Directly overcoatable with most paint systems

Maston 1K Epoxy Primer delivers a durable and reliable foundation for further coating work, helping to improve coating adhesion and surface protection in professional repair and maintenance applications

DEGREE OF GLOSS (DIN 67530 60 °):

matt 0-25 gloss units

HEAT RESISTANCE: 80°C

STORAGE STABILITY: 60 months

SIZE: 400ml

SALES QTY:

400ml: 0 pcs

USAGE INSTRUCTIONS:

Recoat: always, 5 min

Overpaint <20min

Touch-dry 20min

Dry 24h,

Final hardness after 7 days

When using the product indoors, ensure that the area within at least a 5-meter radius of the painted object is protected. Paint dust is lightweight and can spread over long distances through ventilation.
