

MINI PAINT ROLLER

The quickest & cleanest way to touch up marks and scuffs on painted surfaces

- Roller is designed for use with water-based paints only.
- Roller is designed to use fresh paint directly from the can. No need to dilute paint with water.
- Place roller on a covered solid surface while filling with paint. Place paper towel underneath to avoid spillage.
- Cover areas you don't want to paint. Use with caution.

How to fill

1. Remove the top portion by turning 1/4 counterclockwise.
2. Lift up.
3. Using supplied funnel, fill the bottle with paint.
4. Reassemble the unit by turning 1/4 clockwise until it locks into place.

How to use

5. Open the valve by pulling up on both white levers.
6. Apply paint by tipping the bottle forward and gently squeezing the bottle.
7. When touch-up is complete, seal the valve by pushing down on both white levers.

CLEAN

8. Remove top portion.
9. Remove roller. Rinse under warm water. Snap back into position.
