

HARDENER FOR MASTON 2K PU PAINT AND LACQUER 180ML

**THEORETICAL
COVERAGE**

**VERY HARD
SURFACE**

**GLOSSY FINISH
SURFACE**

**WEATHER-
PROOF**

Hardener for Maston 2K PU Lacquer 180ml. Use hardener as a hardening component, which ensures that the product dries up after application.

LACQUER: MASTON 2K POLYURETHANE LACQUER is a two-component polyurethane lacquer hardened with an aliphatic isocyanate resin. The lacquer is particularly suitable for varnishing vehicles and other transport equipment, as it forms a very good and glossy surface with good resistance to solar UV radiation and mechanical stress.

APPLICATION TIME: Within 3 hours after the hardener has been added to the lacquer (2). Carefully open the hardener jar, a small amount of pressure may build up in the jar during storage.

APPLICATION: The surface must be sanded or roughened and cleaned. Use a degreaser for cleaning. The temperature of the object to be painted and the air must be above 10 °C. Mix the paint/lacquer and hardener separately thoroughly and mix together. Use Maston PU Thinner if necessary (Universal Thinners or Thinners cannot be used). When painting with spraygun, nozzle recommendation 0.011 - 0.013". The lacquer hardener and the finished mixture contain isocyanates. If ventilation is inadequate we recommend using a motored respirator, especially when using a spraygun. A respirator with a combination filter A2-P2 can be used for intermediate and short-term use. In addition, care must be taken to protect the face and eyes. Coverage 10l/m²

The opened jar should be used within 14 days.

DEGREE OF GLOSS (DIN 67530 60 °):

gloss 80+ gloss units

HEAT RESISTANCE: 150°C
