

MODENA

Maston Modena is an air-drying alkyd paint suitable for both indoor and outdoor use. Its versatile formula provides excellent adhesion on metal, wood, stone and glass surfaces and delivers consistent plastics when used with a suitable primer. For plastic surfaces, we recommend using a plastic primer to ensure optimal results.

The paint's durable and protective finish provides long-lasting protection against weather and wear, making it also well-suited for outdoor spaces. Its smooth application and drying characteristics make it easy and effortless to use.

Instructions:
Clean the treatable surface from any grease and dirt to achieve reliable and durable finish. Sand uneven surfaces before starting the work. Always sand in the direction of the grain for wood surfaces and avoid multiple direction sanding even for metal. Use fillers, if necessary. Remove any sanding dust carefully.

Mix the paint before use! Check the suitability of the paint by applying it initially onto the old paint. Maston Modena could be applied using a brush, roller or spray.

BINDER: Alkyd

DEGREE OF GLOSS (DIN 67530 60 °):
matt 0-25 gloss units
satin 35-50 gloss units
gloss 80-100 gloss units

HEAT RESISTANCE: 100°C

STORAGE STABILITY: 60 months

SIZE: 1l , 250ml

SALES QTY:
1l: 2 pcs
250ml: 5 pcs

USAGE INSTRUCTIONS:
Dilution and washing the tools: Maston Xylen.
Drying time at room temperature (+20 °C): touch-dry within 2h, if you need to apply several coats of paint, do it within 1- 4 h or only after the paint is completely dry, i.e. after 7 days.
Coverage: 8-10 m2/l

RECOAT:
Recoat within 1-4 hours, or after 7 days. Otherwise film disturbance might occur.
