SOLVENT BASED

Maston Electro Clean is a high-quality cleaning agent and lubricant for electrical equipment. Efficiently cleans all sorts of electronic devices. Thanks to its low surface tension, Maston Elektro Clean leaves a smooth, thin protective layer on the treated object. Does not damage rubber or plastic parts. Instructions: Turn off the power of the device to be cleaned. Spray onto object. Leave for 10-20 minutes before powering up the device to allow all solvents and propellant to evaporate. NB! Flammable: never spray onto electrical equipment whose power is switched on.

BINDER: Other

STORAGE STABILITY: 60 months

SIZE: 400ml
