SPRAY DISTANCE

SOLVENT BASED

Spray MEK (methyl ethyl ketone) is a versatile and efficient cleaning agent. It efficiently cleans adhesives, printing inks, lubricants, magnetic tapes, oils, waxes and resins. Instructions: spray the cleaning agent directly from a sufficient distance. Normally aerosol pressure is sufficient in itself to clean the surface. You can also use a brush or a cloth to wipe the surface if it is very dirty.

May damage some plastic surfaces! Always test suitability before use on a small, inconspicuous area.

BINDER: Other

STORAGE STABILITY: 60 months

SIZE: 400ml

SALES QTY:
400ml: 6 pcs
