

COLDSPRAY

SPRAY DISTANCE

SAFETY GLOVES

MASTON COLDSPRAY is a useful aid in installation and dismantling jobs where very cold temperatures must be achieved quickly. Suitable for use in checking circuits, and fastening or fitting small bearings, bushings and spindles. Maston ColdSpray is also excellent for identifying electronic and mechanical faults. Provides powerful, quick cooling down to -55 °C.

NB! Never spray onto skin: risk of hypothermia. Instructions: Spray directly onto item to be cooled. Object will cool down immediately. Use protective gloves if possible.

STORAGE STABILITY: 60 months

SIZE: 200ml
