

SPRAY QUICK START

**SHAKE****SPRAY DISTANCE****START ENGINE**

Maston Spray Quick Start is an easy-to-use aid for the internal combustion engine start-up problems. Simply spray on the suction side of the engine, either in the air filter housing or in the intake manifold. Ether based mixture ensures effective ignition even at low temperatures or low revolutions. May be used occasionally in all types of vehicles such as cars, lorries, agricultural vehicles, tractors, chainsaws, trimmers, lawnmowers, etc. For non-continuous use. Make sure that Spray Quick Start is suitable for your engine before use.

STORAGE STABILITY: 60 months
