

SPRAYPAINT BACKLIGHT BLACK

Maston Backlight transparent sprays are suitable for applications of numerous transparent objects, which you want to give color and keep the object transparent. If the object has a structured surface, the structure will remain visible underneath the painted surface. Especially developed for plastic surfaces, but improves adhesion of paint and clear coats on all surfaces. Due to strong adhesion can be applied even on hard-plastics.

Examples of use: transparent coated plastics, glass, lamps, bulbs, metals etc. Attention: In many countries painting of back lights or any other lights of street vehicles is prohibited. Please consult local regulations or authorities in prior to paint any lights or bulbs of street vehicles. Maston does not take any responsibility of misuse of the product.
Test compatibility in prior to painting.

Drying time: Dust-dry: after approx. 30 min., tack-free: after approx. 2 hours, dry to touch: after approx. 4 hours.

BINDER: Alkyd

STORAGE STABILITY: 60 months

SIZE: 400ml

SALES QTY:
400ml: 6 pcs

USAGE INSTRUCTIONS:
When using the product indoors, ensure that the area within at least a 5-meter radius of the painted object is protected. Paint dust is lightweight and can spread over long distances through ventilation.
