Maston Car Colors are made of acrylic binders and pastes of car refinishing OE quality. Maston Car Colors offer a very short drying time, extremely high gloss and wear resistant surface. Please check the color shade from the top.

The coverage of Maston acrylic spray paint is extremely high and therefore you can paint much more than with the traditional spray paints. The surface is resistant to chemicals, such as petrol and white spirit. The coating is very hard and gives an excellent protection for wear and stone chips.

The colors match exactly with the original color of the car. Maston Car Color System is based on intelligent software which gathers together databases of paint manufacturers, car makers, popularity of colors and sales statistics. It creates a unique line-up of the most running car colors with perfect match to genuine colors.
