WATER BASED

Maston Water-Based Furniture Touch-Up Pen for Wooden Surfaces

The Maston Furniture Touch-Up Pen is specially designed for repairing small lacquered wooden surfaces. It features both a precision needle and a brush tip—the needle is ideal for fine scratches, while the brush is suited for larger marks.

This water-based touch-up pen is perfect for minor repairs on lacquered wood. Typical applications include sanded-through veneers, patched veneer areas, joints between solid wood and surface wood, and small transport-related damages to furniture. The product is translucent and water-soluble.

Instructions for Use:
If necessary, sand the surface and clean it thoroughly to remove sanding dust, oil, grease, and other contaminants. Shake the container vigorously for approximately 15 seconds before use to ensure proper mixing. Apply to the wood surface, using the brush in the direction of the wood grain. Repeat the application if necessary. After the first coat, allow the surface to dry completely, then perform intermediate sanding with 240-grit sandpaper. Remove sanding dust and apply a second coat.
Minimum application temperature: +10°C

Gloss level: Satin (35–50)
Drying times (at +20°C):
- Dust-dry: approx. 15 minutes
- Touch-dry: approx. 1 hour
- Fully dry: approx. 24 hours

Coverage: approx. 0.1 m^2 per 10 ml
Storage: Protect from freezing
Shelf life: 36 months from the date of manufacture

STORAGE STABILITY: 36 months

SIZE: 10ml

SALES QTY:
10ml: 6 pcs
